Chicago Based Leading Collaborative Logistic Solution Provider Chooses Interra Information Technologies for IT & Professional Services

San Jose (CA), Chicago (IL) & New Delhi, India Aug 08, 2007

Interra Information Technologies (InterralT) Inc., a leading consulting and information technology services provider today announced that they have been selected by Chicago based leading collaborative Logistic Solution Provider to provide IT and professional services for application maintenance, functionality enhancements, Quality Assurance (QA), and customer IT support services

InterralT's new client – based out of Chicago - is a leading provider of end-to-end logistics & transportation solutions and helps its customers to take advantage of logistical opportunities by leveraging technology, business solutions, operational expertise, and a centralized capacity network of transportation providers.

The client has selected InterralT because of InterralT's wealth of knowledge and experience in the SCM, Logistics & Transportation areas, coupled with its extensive and proven technology expertise. The two organizations have been working together on several maintenance & support projects in Mainframe areas since July of this year. The success of these early efforts will further fuel the decision to expand the relationship.

On the period of engagement, Souvanik Sarkar Vice President and CTO of InterralT said "We are delighted to have been selected as an IT partner by this leading Collaborative Logistic Solution Provider. With this partnership, our client can leverage InterralT's decade-rich experience and expertise as global software services provider & experience and knowledge in SCM, Logistics & Transportation areas. This win is once again an endorsement of our robust & mature methodologies, cost-effective onsite-offshore engagement model, tested I-QT process framework, and our commitment & expertise for high-end consulting & professional service. With the synergy between our two teams, we look forward to a long and mutually beneficial relationship"

About Interra Information Technologies Inc. (InterralT)

InterralT has been a leader in the global information technology market since its inception in 1995. InterralT incorporates its Global Delivery Model to provide information technology consulting services to Fortune 500 companies, regardless of where our clients' facilities are geographically located. Today, InterralT is one of the largest privately held offshore consulting companies with operations in India.

InterralT has consistently and successfully provided innovative solutions tailored to a wide range of industries for its clients. InterralT has a history of managing mission-critical and highly complex programs, while maintaining hardware and software independence.
